Ingredient Spotlight – Reflect

Reflect:

Reflect is a non greasy, non-hydrating sun block. It is the first non-chemical, spray-on sunscreen on the market! It is based on Titanium Dioxide for Broad Spectrum coverage, protecting you from both UVA and UVB rays.

It is non-irritating, and contains some powerful (and chirally corrected!) anti-oxidants (**LGlutathione and L-Superoxide-Dismutase**) which protect the cells against free radical damage.

Reflect is great for re-applications ... and also a great choice for Children due to the quick and easy spray, tap and go method.

Remember, when playing in the sun ... **REAPPLY YOUR SUNBLOCK** every 2-3 hours!!
(minimally!)

GENERAL INFORMATION

We carry exclusively CosMedix & Société Skincare lines. Both are chirally correct, free of harsh chemicals, containing no parabens, no dyes, no chemical irritation – only high potency vitamins, minerals & antioxidants that change the physiology of the skin.

Skincare products are recommended to support our professional services at home.
